RK Supply Ltd.

Electrical Submersible Pump
TOOLS and SUPPLIES

"With our experience and resources we **specialize in service** and supplying the right tools and materials for the job.

We understand that the installation and pulling of ESP equipment is a very expensive operation. It is essential that time is taken and correct procedures are followed. It is also important that the correct tools and materials are used on the installation to ensure the life and reliability of the the manufacturers equipment.

At RK Supply, our business is to make sure the correct installation tools and materials for Electric Submersible Pumps are available to all consumers.

Please give us a call and our professional staff will try to help you with your needs. I can not say it enough: We excell at customer service; **we will give you an answer within 24 hours in most cases"**

Ken Wallace, *president*

RK Supply Ltd.

Electrical Submersible Pump
TOOLS and SUPPLIES

Specialty tools and supplies are needed to do an ESP installation.

RK Supply Ltd was founded in 2000 to supply these tools and supplies. With over 15 years of oilfield experience we pride ourselves in providing the right tools for the job and more importantly, **prompt customer service**.

As a small company we can **respond quickly** to your inquiries and our pricing also reflects the lack of overhead that large companies must incorporate into their costs.

Using our experience we know what it takes to get the job done and if we can not manufacture the right tooling required, we will find it through our network of resources.

RK Supply Ltd. has an **extensive parts list of ESP tools** supplied by major manufacturers. If you have a part number of what you are looking for, in most cases we will recognize exactly what you are after.

We know that every operation will require different services so we like to **develop a personal relationship** through communications in order to offer what you the client requires and modifications can be made to almost anything we build in order to make your job easier.

Give us a description of what you require. While we are based out of **Canada** our business is mainly International and we direct ship from either Edmonton, Alberta or Houston, Texas.

TOOLS and SUPPLIES

Cable Spoolers, Skid Mounted / Cable Shop / Truck Mounted

We manufacture many different styles of spooler units such as skid mounted, truck mounted, and cable shop ESP Cable Spoolers.

One example is:

p/n 8002301 H.D. Portable Spooler, designed to spool E.S.P. cable, utilizing standard cable reels, 66 inches wide, up to 90 inches in diameter, suitable for cable up to 24,000 lbs, 80 Series Sprocket, 70.5 inch Saddles. Weight 3300lbs

• All functions hydraulic, prime mover being 20 HP, 380V, 50 HZ, 3 PH electric motor. (Alternative voltages or diesel available.)	• Skid dimension, 12' long x 7' wide, main rails 8" I beam, Expanded metal floor, 4 lifting ears, fork lift pockets, fixed spool stands, moveable spool controls.
• Remote Hydraulic control, for spooling forward & reverse Max 12 RPM	• Hydraulic motor is adjustable and slides out of the way when loading and unloading.
• 30 gal. hydraulic tank	• Locking tool box
• Headache rack	• Maintenance Schedule
• Reel rotated on shaft, driven by chain and sprocket 80 Series	• Unit sand blasted and painted one color (machine grey)
• Spares for chain and sprockets	• 300 ft electrical cord
• Hydraulic pump, vane type, rated 14 GPM, 3500 PSI	• Basic tools for operating (hand tools and grease gun)
• Instruction Sheet	

We also usually sell this item with a variety of spare parts such as:

p/n 8002302 Spooler Spare Parts as listed

1 ea T6C pump	1 ea Motor 104 - 1228
1 ea M3000 Coupling	2 ea SF 6731Element
1 ea SDCE 755 Control Valve	2 ea RPGC Fan Cross port relief cartridges
